

LAXYA GABA

PROFESSIONAL SUMMARY

Artificial Intelligence engineering student building toward a career in AI and LLM engineering, with hands-on experience across machine learning, deep learning, and generative AI systems.

Proficient in building end-to-end ML pipelines and LLM-powered applications: from skill-scoring engines to real-time judge systems for competitive platforms.

Driven by a genuine curiosity for how AI systems are built and deployed — and how they intersect with infrastructure, business, and geopolitics. Looking to contribute to AI engineering and product teams where technical depth and initiative matter.

EDUCATION

B.E. Computer Science & Engineering (Artificial Intelligence)

Chandigarh University, Mohali (Punjab) — CGPA: 8.65

Session: 2025–2029

Senior Secondary (CBSE)

GRD International School, Rudrapur — 80%

Session: 2023–2024

Matriculation (CBSE)

GRD International School, Rudrapur — 93%

Session: 2021–2022

TRAINING & PROJECTS

CREST — Complaint Resolution and Escalation Smart Technology [GitHub](#)

Technologies: Python | AI | Classification Pipeline

- Collaborated as a core team member to build an AI-powered complaint resolution and escalation system for Union Bank of India during IDEA 2.0 (Somaiya, Mumbai)
- Contributed to designing the escalation logic and AI-driven classification pipeline that reached the hackathon semi-final stage

BattleOfCodes — Real-Time Multiplayer Competitive Coding Platform

[GitHub](#)

Technologies: Python | C++ | WebSockets

- Engineered a live head-to-head programming duel platform with a real-time judge engine evaluating execution speed, memory efficiency, and output correctness
- Implemented disruption mechanics where superior code performance unlocks opponent-environment interference mid-session
- Architected for white-label SaaS expansion nationwide, targeting engineering college students with an India-first vision

AI-Powered Resume Analyzer [GitHub](#)

Technologies: Python | Streamlit | Gemini API | NLP

- Built a Streamlit application with PDF parsing and weighted skill-match scoring across multiple target job roles
- Designed a weighted scoring engine benchmarking candidate fit against role-specific skill requirements
- Integrated a Gemini API chatbot to generate personalized learning roadmaps based on skill gaps

CERTIFICATIONS & AWARDS

- Microsoft Azure AI Fundamentals (AI-900) — Microsoft, Chandigarh University x ByteXL Programme, 2025
- Microsoft Azure Fundamentals (AZ-900) — Microsoft, Chandigarh University x ByteXL Programme, 2025

ACADEMIC ACHIEVEMENTS

- Reached the semi-final round of IDEA 2.0, a hackathon organized by Somaiya, Mumbai, Maharashtra
- Built CREST (Complaint Resolution and Escalation Smart Technology) for a problem statement hosted by Union Bank of India
- Solved 77+ problems on LeetCode (ongoing), strengthening proficiency in Data Structures and Algorithms

EXTRA CURRICULAR & CO-CURRICULAR

- Runs "AI & Tech Explained Simply" — daily Hinglish tech, AI, and geopolitics content on Instagram Reels & YouTube Shorts
- Active participation in hackathons and independent AI/software project development

TECHNICAL SKILLS

Python | C++ | C | Java
(Learning) | SQL | JavaScript |
LLMs | Prompt Engineering |
Azure OpenAI | RAG | Git |
GitHub | GitLab | Linux CLI

INTERPERSONAL SKILLS

Public Speaking
Technical Writing
Cross-Functional Collaboration
First-Principles Reasoning
Structured Decomposition
Pattern Recognition

INTERESTS & HOBBIES

Problem Solving | Tech Content
Creation | Listening to Music |
Playing Badminton | Geopolitics
& AI News

LANGUAGES KNOWN

English | Hindi

PERSONAL DETAILS

Self-motivated | Curious | Fast
Learner | Detail-oriented
